

ScriptSure Cloud

Electronic Prescribing

OVERVIEW:

Since 2000, DAW Systems, Inc. provides ScriptSure Electronic Prescribing to medical professionals, enabling them with real-time access to patient prescription history, medication management, medication adherence benefits and SureScripts electronic prescribing network connectivity. We deliver secure, reliable and innovative clinical software to all provider specialties, hospice and hospitals. Easy to use screens require no computer knowledge or typing skills and our focus on workflow and efficiency makes ScriptSure the best in electronic prescribing. Every pharmacy on the electronic network and all prescription medications, injectables, over-the-counter and vitamin products have been pre-programmed for fast and easy selection. ScriptSure is a 10-time winner of the White Coat Award (2021 and 2022 winner for most accurate prescriptions).
