

COOKIE POLICY

Effective Date: June 9, 2025

Overview. DAW websites and applications may store or retrieve browser and device information through the use of cookies and related technologies. These tools support core functionality, personalize user experience, enable analytics, and enhance service performance. Blocking certain cookies may impair functionality or limit access to some features.

What Are Cookies and Device Identifiers. Cookies are small data files placed on your browser or device. DAW uses both first-party cookies and third-party cookies to support authentication, user preferences, content delivery, analytics, and advertising. In addition to cookies, DAW may collect device-based technical data including the type and version of the operating system, the browser making the request, IP address, routing information, device geographic location, search terms entered, URLs most recently visited, and an anonymous unique device identification number if a mobile application is used.

Why We Use These Technologies. These data elements and identifiers enable DAW to operate, analyze, and improve its Services. When such technical data is combined with personal information, we treat the combined data as personal information under this Agreement. Furthermore, in the event that any standalone data elements collected by us contain personal information, we treat those elements as personal information as well.

Your Choices and Privacy Inquiries. You may accept or reject cookies and adjust preferences at any time by modifying your browser or application settings. By clicking "Accept," you consent to our use of cookies and related technologies as described in this Agreement and our Cookie Policy. If you wish to terminate your account and request deletion of your personal information, you may contact us using the information provided below. Upon your written request, your account will be deactivated and personal information may be purged from our systems in accordance with our policies.
